COMPANY**

PRI-CONSTRUCTION MATERIALS TESTING

CLIENT:
PRI-Construction Materials Testing

ARCHITECT:
Ai Collaborative

DESCRIPTION:
Facility Expansion PRI-CMT

LOCATION:
Tampa, Florida

The Perry Company was selected by PRI-Construction Materials Technologies to design/build a new 18,000 sf expansion. This building is 10,000 sf of 18' clear office and lab space with a connecting 9,000 sf metal canopy. The metal canopy was designed for a 5-ton crane system specific for wind uplift testing. The block building features an electrical festoon system, compressed air system, and other unique electrical requirements.
